Hi Lynn - Welcome to the program! We are excited to have someone dedicated to OU-7 on the project. I have requested CB&I (Aerojet Rocketdyne's RI/FS consultant) to provide you with credentials to access their web portal, which contains e-versions of all OU-7 related documents. Attached is the current schedule we will be providing to the CAG during next month's meeting. I have also attached the most recent information regarding Area 40 (currently included in OU-7). Area 40 consists of 5 source areas that are included in the City of Folsom's South of Highway 50 Master Plan as a park. There have been lots of discussions about Area 40 recently and it will most certainly be a focal point of the City, the developer, and Aerojet over the next 2 years. Our goal is to have a Proposed Plan prepared for this area by the end of this calendar year (if not, the end of EPA's fiscal year); although the CAG calendar does not reflect this goal.

Let me know if I can provide any additional reading material or history before our formal meeting on July 15.

Chris
